**RE: West End Water Co. CC&N Expansion Docket No. W-01157A-05-0706,
Decision No. 69672**

Dear Mr. Bozzo:

The above referenced Decision granted by the Arizona Corporation Commission on June 28, 2007 requires West End Water Co. to file with Docket Control several compliance items. One of the compliance items listed in Finding of Fact No. 25 Item No. 2 states, "that the Company file, within 365 days of the effective date of this Decision, with the Commission's Docket Control, as a compliance item in this docket, a Notice of filing indicating West End has submitted for Staff review and approval, a copy of the fully executed main extension agreements for water facilities for the extension area;"

West End Water Co. respectfully requests an extension of sixty (60) days to comply with the filing of the main extension agreement for the extension area.

The extension area is part of the larger master planned community of Walden Ranch and is being developed cooperatively with the Rancho Maria master planned community. As such, provisions for the water supply, storage facilities, pumping facilities, and other off-site facilities are being planned on a regional basis and will be constructed on a regional basis. This level of regional planning and construction requires a single main extension agreement between West End Water Co. and the three developers within the two master planned communities.

A main extension agreement has been negotiated which provides for the regional cooperation required and meets the needs of the three developers. However, as of today, one of the development entities has not obtained authorization to execute the main extension agreement. We believe that this final authorization is imminent, and request

the extension to allow time to obtain the final authorization of the required main extension agreement.

Cordially,
